Tour Itinerary

Program : Details

You drive from your hotel in Hurghada in an air-conditioned vehicle directly to the stable. You will be greeted by our competent team in the stable, you can expect an estate with an Arabian flair. After a briefing you will be assigned the right horse (depending on your level of experience). We have the right horse for everyone, whether child, beginner or even professional rider. We ask you to wear long trousers on this day for safety reasons, helmets are of course provided on

request. Our experienced guides will now accompany you through the picturesque desert or the beach on the Red Sea (swimming with the horses is also possible, it is really an unforgettable experience!). When swimming, please wear your swimwear under your clothes, as there is unfortunately no way to change on the beach. During the entire tour, our guides take photos and videos (included) so that you also have a memory of this experience. This tour can be private or in a group, whichever you prefer. Soft drinks and typical Arabic tea are available in the barn. Our donkeys and camels are also happy to be petted.
