Tour Itinerary

Details : Full description

After a long day of sightseeing or sunbathing in Hurghada, there's nothing better than a full-body therapeutic massage to help you relax and rejuvenate. This 45-minute massage will use a variety of techniques to release tension, improve circulation, and promote overall well-being. Your experienced massage therapist will begin by warming up your muscles with a gentle massage. They will then focus on specific areas of tension, such as your neck, shoulders, and back.

They will use a combination of deep tissue massage, Swedish massage, and other techniques to release tension and promote relaxation. Before your massage, you'll have the option to spend 15 minutes in the sauna or jacuzzi. The sauna's heat will help to further relax your muscles and release toxins from your body. The jacuzzi's bubbles and hydrotherapy will help to soothe your muscles and improve circulation. This full-body therapeutic massage and spa experience is the perfect way to unwind and recharge during your vacation in Hurghada.
